About the Company

“Sahyadri Engineering Corporation ” was founded in 2009 by Mr. Dinesh Baban Shelke . Our business operations is at Goregaon, Mumbai, with our fabrication workshop 100 kilometers north in Tarapur MIDC Area, where full-fledged work is located as on today which caters to the Fabrication of custom made Process Equipment for Chemical, Pharmaceutical, Paint & Dyes ,Petroleum, Petrochemicals, Water Treatment Companies, Paint & Textile Industries and many more.

Our Vision

For us Quality is the key to satisfy our Customers. We are committed to provide best possible quality product within the timeline specified by our Clients.

VISION

To achieve the Quality product, We maintain three stages which includes:

- Stringent check on incoming raw materials.
- We focuss on improving the process to deliver quality products to the Customer.
- We conduct thorough inspection to ensure that they comply with Clients Specifications.

We achieve this through :

- Keeping update knowledge about International Codes like ASME, IS etc.
- By making quality awareness among our entire team.
- By involvement of all employee in continual quality improvement.
- By keeping safety & healthy environment at work place.
